

# TRN Generation

- ❑ A Temporary Reference Number (TRN) is generated when you start filling out a new GST registration application on the GST portal ([www.gst.gov.in](http://www.gst.gov.in)).
- ❑ It allows you to save your application and resume it later before final submission.

## Validity of TRN in GST:

TRN is valid for 15 days from the date of generation.  
If you don't complete the registration within 15 days, the TRN expires, and you must start a new application.
